“ *I've known Darla (and Bob) for around 10 years. They both were kind people, hard workers and friendly to all. Darla was a bit on the shy side but once I got to know her I was so impressed by her deep love for Bob and her family. Her sisters and daughter and family members really pulled together and gave so much love and support. That is such a great tribute to their love for each other. I'll miss her optimism.*
