

Donna Gay Bausch

February 28, 1949 - April 20, 2020

Donna G. Bausch (Peckham) passed away at her home outside of Tonasket, WA surrounded by loving family and friends on the morning of April 20th, 2020 after a courageous fourteen-year battle with Non-Hodgkin's Lymphoma. She is survived by her mother Janelle Peckham, husband Michael Bausch, sons Weston and Joel Williams, daughter Candace Mayfield and seven grandchildren Marianne, Joshua, Ethan, Kylie, Madison, Aiden and Aaron. Born December 28th, 1949 in Brewster, WA she was a true Okanogan girl at heart and even though she lived in several locations throughout her life including, Albion, WA, Wenatchee, WA, Kent, WA, Newport, WA, Oklahoma, Hawaii and Utah, her home was the Okanogan where she owned property outside of Tonasket for 36 years.

Raised on horses she owned several throughout her life and was an avid and skilled rider and trainer. There weren't many days in the first half of her life when she wasn't riding, including the day before she gave birth to her eldest son. She would regale in stories of her cousin Lynda and her riding together. A nurse by trade, she went to both Loma Linda U and Washington State U where she met her first husband David Williams before moving to the Seattle area and practiced as a home health provider.

She loved spending time in the word and grew much closer in her walk with Christ during her years of battling Lymphoma. All who knew her were inspired by how upbeat and positive she was and even though she was often going through great physical hardships she constantly praised the Lord and spent

her energy helping others without complaint.

She will be missed by family and friends and will, without a doubt, be there with us in our Lord's heavenly kingdom. Until we meet again Donna, we love you.

“ I have many memories of Donna Gay, Marilyn and Janelle and all of them make me smile. Their rabbit, horses and chickens were all exciting to me, their next door neighbor. Janelle had to wash and dry all our clothes one day when we went into the chicken coop and caught chicken mites. I'm not sure if we really had them but Janelle made good and sure and took care of us. We got to attend their church's summer bible school one year where we decouped Jesus on a board to hang on our bedroom wall. It was a wonderful time living a gully away from them. God bless them all in this brief separation where Christ will be attending them on both sides of the veil before the beautiful resurrection we'll be allowed because of him. So sad to know she's gone before.
Will Always remember,
Sandi Mikel Scott Smith(sasusm@gmail.com)
