“ *Larry and I met George and Barbara on a Princess cruise from New Zealand to Australia. We were table mates and then did several shore excursions with them. Such a delightful pair! We have kept in touch off and on. I am thinking of Barbara today. We were able to visit one afternoon when they travelled through California.*

“ *I met George and Barb at a function for Habitat for Humanity. We were seated at the Manson Farmer's Market and doing a fundraiser for Habitat. George and Barb were such a delight to sit with through the day. He shared interesting stories of his life, as did Barb, and he easily talked with passers by who offered their donations. I miss his physical presence on this earth. My heart goes out to Barb and family for his passing.*
