“ *Hope was a very special person in my life. She was a great teacher and I still make her recipe for candied walnuts.*

“ *Hope was a special lady. She gave support to students who weren't even her own.*

“ *Hope Abadie - her very name brings a smile to my face. I've been her health insurance agent since March, 2008 and we shared many thoughtful moments together. She loved her students, her pets, and her family and spoke lovingly of them. Due to Covid I wasn't able to meet with her for her annual review and she had a difficult time hearing a phone conversation. I hope she had a peaceful passing. My condolences are with her family and friends.*
