“ *I just by chance came upon Jeff's name while looking up a friend's obit. I saw and recognized his name. I only knew him briefly. We spent 3 days and nights getting to know each other. I was visiting his sister Corinna and he lived with her at that time. I ended up spending all my time with him. We had an instant connection. We sat up all night talking and laughing about everything as if we had known each forever. I am a shy more reserved person that finds it very hard to strike up conversations with people. Not the case with Jeff. I was living in Everett while he lived in Wenatchee. I wish we had stayed in touch. I do not know why we didn't. I feel very sad about that now. Seeing his name like this makes me remember those kind brown eyes and long soft hair. I still think of you with kindness Jeff. If you can hear me please know that. Your friend Cynthia*
