GW

“ *My sympathy to Kitty's family and friends. I've known her recently through Bunco and always enjoyed her flash of humor as she rolled the dice for a fun possible Bunco. When I first met her, at Lutheran church, and again at Bunco she let me know how much she LOVED teaching. She dearly missed her students and the joys she shared with them. She also spoke highly of her husband and how much she loved riding horses with him before her illness set in. When I think of Kitty, I think of inner joy and peace. My condolences are with each of you who were fortunate to be her students and friends.*
