“ *I am so sad to read this. I have known Paul for many years because I was his mother's health insurance agent. He took care of her until she went to a care center. He worked diligently to make sure she was well cared for and they had a loving relationship. Also, I am sad for his Golden Retriever who will miss him dearly if she is still alive. I hope someone is taking care of everything like he did with his mother. My deepest sympathy to his family.*
