“ Troy Lee McCullough

January 29, 2023 at 08:49 AM

“ I have known Troy for 66 years. Went to grade school in Brewster with him and part of high school. When I lived on old 97 outside of Okanogan he would stop by and see what project I was working on and when I was in Brewster I would stop and shoot the bull with him. He was a great guy and will be missed.

Troy loved hot rods his whole life, from building plastic models of them in childhood to getting one ready to drive in a parade. Joy is finding your passion and never letting it go. Peace and Joy, cousin.

Marcia Knudson - August 05, 2019 at 03:32 PM

I was not aware that Troy had passed until I began looking for his telephone number and saw his obituary information. I was in school with Troy since the 3rd or 4th grade when he joined our class all the way through graduation. He was a special person to know, and he is missed. God has a special place for him in heaven.
