“ *I am so sorry to hear of Vicki's passing. I got to know her here at the Clinic in Wenatchee when she was part of a research study. She was such a joy to talk to and had some very interesting and entertaining stories. When she left the study, I kept in touch with her, keeping track of when she was coming to the clinic next and made sure I checked in with her knowing I would get a very welcome huge hug. She reminded me of my mom, I think that is why I enjoyed her so much! She was part of my life for only 3+ years, and I cherished every moment I got to spend with her and her family. She gave me an angel a few years ago, which I keep by my computer and look at it every day. I feel like I have a connection with her when I look at the angel. I will miss seeing her and hearing her tell me, with that raspy voice "I love you". She was a treasure.*
